19070 ENGINEERING AND FABRICATION BUSINESS - BE YOUR OWN BOSS!

Calling all boilermakers or machinists who are looking to be their own boss and work flexible hours!

We have an exciting opportunity for you to purchase this established engineering and fabrication business that has been successfully operating for over three years and is ideally located on the beautiful Sunshine Coast in Queensland.

Asking Price \$49,990 inc Stock

This business is well known for providing high-quality work to suit customers' individual needs, everything from welding, precision and general machining to stainless steel and aluminium end caps, covers and plates. Supplying companies located from Maryborough to the Gold Coast.

This is the ideal first business for a tradesperson looking for an easy start without the initial effort required to build a solid reputation. This engineering business is already highly regarded and comes complete with everything you need to hit the ground running, from all the necessary equipment to their large list of customers requiring regular work. There is enough work to keep an owner-operator busy as well as the considerable potential to expand and hire a trades assistant if needed.

The demand from local companies continues to increase; there are a large number of bigger companies relocating to the Sunshine Coast and sourcing local businesses to supply what they need. There is little to no competition in this field, and most local businesses tend to work in well together as each provides a different service.

This is your chance to create your own environment, pursue your passion and be completely satisfied that the hard work you put in is benefiting your pocket and not your employer.

Training can be provided if needed to ensure a stress-free transition.
