Would you enjoy having the freedom to choose your own hours, earn a great living, and work for yourself? There is no need to look elsewhere if you want a lucrative and adaptable garage door installation business!

Covering the entire Sydney Metro Area, the business boasts an extremely diverse and lucrative clientele throughout the region. With a commission-based sales rep on the road measuring and quoting sites as well as contracted garage door technicians carrying out installation work, the leads and profits are always being generated whilst you oversee the whole operation.

The business also utilises an offshore administrator that covers calls and schedules/coordinates jobs for the other staff. This allows a new owner to sit back and manage the business from anywhere or play a more hands-on role by taking over quoting and/or scheduling to boost the bottom line.

Completely mobile and operable from a home office, the owner has created a lean business model with minimal fixed costs allowing for an increased profit margin. Highly scalable and poised for growth, the business is only limited by how much work it is willing to take on.

With the current owner working less than 1-2 hours a day, the business model has effectively outsource the menial tasks, meaning anyone can walk into this
