North Sydney

20108 PRIMARY SCHOOL STEM AND ROBOTICS PROGRAM BUSINESS

This is an exciting opportunity to join in the success of an award-winning and highly regarded business that provides schools in the affluent area of Sydney's North Shore with a co-curricular robotics program that uses LEGO® building blocks and related coding application software to provide children with an engaging, hands-on and fun learning environment that they love.

If you're searching for an opportunity to work flexible part-time hours and make a great income at the same time then this business is your answer!

Sydney's North Shore has an abundance of public, catholic and private schools and this business's award-winning programs have been incredibly popular among the students. With proven results for every age group by providing theoretical knowledge and practical implementation in science, technology, engineering and mathematics basics. Each program consists of a 4-term curriculum, where students will build and code a new model and learn new principles every week. The learning happens through intuitive study in a fun and entertaining environment, and provide students with an understanding, appreciation and interest in real-world applications.

Key Features Of This Business:

- Highly regarded and well-known brand with outstanding reviews
- Profitable model and proven success
- Established schools in place with an average of 20-30 sessions each week
- Excellent online and social media presence
- Easy to learn, semi-automated processes requiring minimal input
- No experience required, this business has a group of reliable university students that operate as instructors. Most of the students are studying Engineering or Computer Science and are happy to assist the new owner. The only requirements are a Working With Children Check (through Service NSW)
- Rewarding and fun work
