THRIVING POTTERY MANUFACTURING & RETAIL BUSINESS - SOLD

Unfortunately you have missed this one.

A unique and flourishing pottery business specialising in crafting earthy, natural, and simple style ceramics, is now available for sale. This business is renowned for its distinctive approach to spreading positivity through pottery, featuring affirmation mugs and bowls with empowering messages. Strategically selling products at Sunshine Coast markets, the business showcases an eye-catching and inviting market stall display.

The neutral colour palette of the pottery attracts a variety of customers, providing timeless designs that seamlessly blend into various settings such as homes, bedrooms, and offices. The consistent high-quality products have contributed to the business's profitability since its inception.

Owner-operated with a small, dedicated team of experienced staff, the opportunity to tap into the unlimited creative potential, coupled with the flexibility to work from home on a self-managed schedule, adds to the appeal. The business thrives on the ability to set up market stalls across varied and bustling settings, including festivals, expos, and fairs, where high foot traffic is guaranteed.

The decision to focus solely on market sales, closing the online shop and halting wholesale orders, was made last year due to high demand and the need for expansion. However, the prospect of engaging in online sales and tapping into wholesale opportunities, distributing products across Australia, remains substantial and presents a lucrative pathway for expansion to the potential new owner.
