## 34664 THRIVING CHILDREN'S MULTI SPORTS BUSINESS – GROWTH POTENTIAL

A rewarding, thriving, and profitable business opportunity awaits with this children's multi-sports and performing arts/dance program. Aligned with the Early Years Learning Framework, this business distinguishes itself with its educational, fun, and nurturing culture and values. It challenges children with technical skills while emphasising confidence building, team participation, self-awareness, and cognitive learning to help them reach their full potential.

All programs are conducted at kindergartens and early learning centres, meticulously designed to cater to indoor and outdoor activities tailored to children's growth and development. The business employs qualified coaches with proven experience in early learning and childhood development, all holding current Working with Children checks. Each centre has supervisors and teachers on-site to oversee class participation, review engagement levels, and provide feedback to the coaches.

Strong advertising on social media platforms with regular updates and program changes attracts interested parties for trials and ongoing incursions. This approach also allows parents and families to provide feedback and express interest. The business has successfully built a strong presence in the northern catchment of Melbourne, sourcing ongoing kindergarten incursions and dance and performing arts programs, highlighting its continuous growth and potential.
