34054 PROFITABLE STRUCTURAL DESIGN & GEOTECHNICAL TESTING BUSINESS

Introducing a reputable structural design and geotechnical testing business catering to the engineering needs of clients all across Victoria. Specialising in comprehensive structural design and assessments as well as geotechnical and contamination testing, this business stands as a pioneer in the field.

With an extensive track record spanning over 3000 projects in the past year alone, this business has become a trusted name in the industry. This is evident through the considerable amount of repeat clients, much of whom have been referred through word-of-mouth. As the demand for their services escalates month by month, the potential for expansion becomes increasingly evident.

The business demonstrates consistent year-on-year growth despite only taking on a small part of the client's projects. Amidst this exciting landscape, there lies the immense potential for a larger engineering company to capitalise on the extensive client base already cultivated, or an existing business looking to have in-house geotechnical testing and reporting capacity. The groundwork has been meticulously laid, and the possibilities are boundless. Their adept team of experts contributes to the seamless operation of the business, making it a turnkey opportunity for an astute buyer.

With the potential to double its staff and profits based solely on the current demand, the business is poised for expansion. Don't miss the chance to be part of a venture with a track record of excellence and untapped potential for future success.
