35122 PROFITABLE STEM EDUCATION BUSINESS

A vibrant and innovative business dedicated to enriching children's development is now available for purchase! This business isn't just about teaching science, technology, engineering, and mathematics (STEM); it's about preparing the next generation for the world of tomorrow—TODAY!

Through interactive learning with specialised motorised kits and thrilling robotic modelling sessions, students dive into activities that expand their knowledge while also cultivating crucial life skills. From coding to creative problem-solving, this business connects imagination with the foundations of STEM learning using state-of-the-art technology.

The fun doesn't stop there! Students also dive into Pseudocode-level coding, working together to create successful robotic projects. These sessions are designed to spark procedural and algorithmic thinking while enhancing critical and creative problem-solving skills. With a focus on project-based learning and real-world applications, this business empowers students to make a positive impact in their communities, one robot at a time.

This business is as flexible as it is rewarding. Sessions are conveniently run after school, directly within the school premises, and sometimes in partnership with gyms and recreational centres during school holidays. Additionally, programs are offered in hired community spaces, making STEM education accessible to a broad audience. The business boasts a strong online presence and operates with minimal owner involvement, leaving ample room for a new owner to step in and drive further growth.
