35311 PROFITABLE PODIATRY PRACTICE - UNDER MANAGEMENT

A rare opportunity has arisen to acquire a highly successful and fully managed podiatry practice in the thriving Melbourne suburb. This established and profitable business is perfectly suited for an investor or healthcare professional looking to step into a flourishing venture without the need for direct owner involvement.

Well-regarded within the community, this practice offers modern facilities equipped with state-of-the-art technology, setting it apart from competitors. Strategically positioned among complementary healthcare providers including a medical centre, pharmacy, chiropractic clinic, and dental practice, it benefits from excellent visibility and accessibility.

The practice is fully systemised and operates entirely under management, with an experienced team of podiatrists and administrative staff handling day-to-day operations. This structure guarantees seamless transitions and consistent service delivery, allowing new ownership to focus on expansion and innovation rather than operational concerns.

Significant growth potential exists with plans already in place to expand the clinic's capacity, including the addition of a new treatment room, enabling increased client intake and revenue. The practice also boasts a strong online presence, featuring glowing reviews across social media platforms and a user-friendly website with integrated online booking capabilities, which enhances customer experience and ensures efficient appointment scheduling.
