21011 WASTE SOLUTIONS PRODUCTS MANUFACTURER - PROFITABLE OPERATION

This is your opportunity to own and grow a valuable asset that can support you today and sustain you into the future!

Established for over 27 years, this manufacturing business specialises in the design, manufacturing, and distribution of innovative hands-free bin apparatuses and bin-tipping machines. This profitable business is focused on providing high-quality service and supplies products to some of Australia's most recognised companies with plenty of repeat business. Providing a unique range of foot-pedal bins, bin-tippers, and other innovative adaptations, this business addresses the need for hygienic prevention of cross-contamination and operator safety during the process of disposing of waste.

Located in a major regional city in Northern NSW within close proximity to Byron Bay, this business offers a relaxed lifestyle with low overheads.

With adaptations to standard bins becoming increasingly popular especially due to legislation recommendations, this business's range of products has become increasingly popular. With the potential of becoming a major stakeholder within the waste industry, this opportunity not only offers the ability for growth nationally, but also offers the ability for international expansion.

Key Features:

- Profitable business model, supplier to Australia's most recognised companies.
- Growth market with significant opportunity to grow and develop the business into the international market.
- Live and work in paradise, an in-demand industry with a wide range of products
