21270 ECO-FRIENDLY TOY MANUFACTURER / RETAILER - SOLD

Unfortunately, you have missed this one, but keep looking as we have plenty of other great businesses for sale - bonzabfs.com.au/businesses-for-sale/

Innovative children's toy manufacturer, producing products and packaging that is renewable and bio-degradable. With a focus on play and learning therapy, the products are designed to fill a gap in the market for ethical plastic products and push back on the waste industry. The business merges cutting edge technology with classic boutique marketing and has seen strong sales since day one.

The business is a completely automated home-based factory, the manufacturing plant is clean, small, and quiet and can easily operate in any normal-sized bedroom. With the nature of eCommerce, you can operate from anywhere in Australia and work your own hours to provide flexibility along with a healthy profit margin.

Offering excellent growth potential, the business has only tapped into a single niche market thus far, leaving opportunities for expansion into retail, childcare, schools and other government and therapy-related organisations. The eCommerce store has a vast reach internationally and is seeing excellent uptake from Asia and New Zealand, with promising results from the USA and a future in the EU market space. Turning six figures in the first year, this company is ready to take off.
